SUPERINTENDENT'S MESSAGE

Portsmouth Public Schools' *Code of Student Conduct* is written and implemented for the benefit of all students in the school division with the expectation that they **will** adhere to all the requirements contained within.

A section of the vision of Portsmouth Public Schools is that our students "will be socially responsible and respected as lights of inspiration for future generations." This vision begins with the involvement of parents and/or guardians reviewing the *Code of Student Conduct* with your children, and ensuring that there is an understanding of the standards of conduct when students are in school and representing Portsmouth Public Schools in the community.

Following this *Code of Student Conduct* will result in a positive and orderly classroom and school that will strengthen the learning of all students. Teachers also will benefit from students who take learning seriously and behave appropriately. If there are any questions about the conduct expectations, please talk with your child's teacher or principal. Thank you for supporting our work in Portsmouth Public Schools.

Sincerely,

Elie Bracy, III, Ed.D.
Division Superintendent

Throughout the school year, there will be opportunities for children to be interviewed or photographed during school hours and on school property for future use on division materials, websites or social media channels; in television or print media; or in other productions or outlets. If you do not want your child to be featured in photos, videos, or other digital media, please fill out the form below and return it to your child's school.

Additionally, in accordance with state code, Portsmouth Public Schools (PPS) may release students' "directory information" without previous parent consent. This includes information such as name, grade level, participation in activities, photo, address, telephone number, and others (you can refer to the Notice of Directory Information in School Board Policy JO for a complete listing of what is considered directory information). Names, addresses, and telephone numbers of students in grades 9-12 will normally be released upon request to military recruiters and institutions of higher education, unless parents/guardians specifically opt-out of the release of this information below. Again, only submit this form if you **do not want** your child's information provided.

Please be advised that even if you opt-out of the release of your student's directory information there may be certain instances where the division will be legally compelled to release this information, such as, to law enforcement officials or when the release of your student's directory information is otherwise specifically authorized by law.

OPT OUT FORM

Please return this completed form to your child's school prior to Sept. 30. If you do not return this form or it otherwise does not appear in your student's record, Portsmouth Public Schools is authorized to release your student's directory information and/or feature your child in public channels without prior written consent.

I wish to opt-out of the release of my student's directory information and photos to the following:

- ☐ Do NOT use my child's photograph, image or name in any media, outside organization or school division print material, website or social media channels
- ☐ Do NOT put my child's photograph or name in the school yearbook.

- ☐ Do NOT release directory information to Military Recruiters
- ☐ Do NOT release directory information to institutions of higher learning
- ☐ Do NOT release directory information to prospective employers

Note: This form does not apply to photographs, videos or information shared during public events, even if they occur on school property (such as football games, graduation ceremonies, etc.).

RIGHTS AND RESPONSIBILITIES

STUDENTS' RIGHTS AND RESPONSIBILITIES CODE OF STUDENT CONDUCT

*Parent is used in this handbook to include natural parent, parent by legal adoption, legal guardian, or court-appointed guardian.

STUDENT CONDUCT (JFC)

The standards of student conduct are designed to define the basic rules and major expectations of students in the public schools of Portsmouth. It is the responsibility of the Portsmouth City School Board to adopt policy and regulations and the administration to issue regulations establishing rules of conduct for student behavior in order to protect the health, safety and welfare of its students. The local school principal has the responsibility and authority to exercise reasonable judgment in enforcing this Code of Conduct. Principals are responsible for ensuring that all students, staff members and parents are provided the opportunity to become familiar with this policy.

The superintendent issues Standards of Student Conduct and a list of possible corrective actions for violation of the Standards of Conduct. Each parent of a student enrolled in a public school has a duty to assist the school in enforcing the standards of student conduct and compulsory school attendance in order that education may be conducted in an atmosphere free of disruption and threat to persons or property and supportive of individual rights. The Standards of Student Conduct, a notice of the requirements of the Virginia legal code § 22.1-279.3, and a copy of the compulsory school attendance law is also sent to all parents within one calendar month of the opening of schools simultaneously with any other materials customarily distributed at that time. A statement for the parent's signature acknowledging the receipt of the Standards of Student Conduct, the requirements of the Virginia legal code § 22.1-279.3 and the compulsory school attendance law is also sent. Parents are notified that by signing the statement of receipt, they are not deemed to waive, but expressly reserve, their rights protected by the constitution or laws of the United States or Virginia. Each school maintains records of the signed statements.

The school principal may request the student's parent or parents, if both have legal and physical custody, to meet with the principal or principal's designee to review the School Board's Standards of Student Conduct and the parent's or parents' responsibility to participate with the school in disciplining the student and maintaining order, to ensure the student's compliance with compulsory school attendance law and to discuss improvement of the child's behavior, school attendance and educational progress. The administrator of the building should exercise reasonable judgment and consider the circumstances in determining the disciplinary action to be administered.

Each student has the right to expect an educational environment in which he or she can strive to achieve his or her intellectual potential. The student is expected to attend school regularly, be diligent in his/her studies and conduct him/herself in such a way that the rights and privileges of others are not violated. The student is expected to accept and demonstrate the obligation of good citizenship to help prevent problems from happening and help solve problems if they occur.

All parents are expected to assume responsibility for the student's behavior and assist the school in enforcing the Standards of Student Conduct and compulsory school attendance. Parents are also expected to maintain regular communication with school authorities, monitor and require daily attendance, and bring to the attention of the school authorities any problem that affects the student or other children in the school. It is the parents' responsibility to notify the school of any unusual behavior pattern or medical problem that might lead to serious difficulties.

The school principal may notify the parents of any student who violates a School Board policy or the compulsory school attendance requirements when such violation could result in the student's suspension or the filing of a court petition, whether or not the school administration has imposed such disciplinary action or filed such a petition. The notice shall state (1) the date and particulars of the violation; (2) the obligation of the parent to take actions to assist the school in improving the student's behavior and ensuring compliance with compulsory school attendance; (3) that, if the student is suspended, the parent may be required to accompany the student to meet with school officials; and (4) that a petition with the juvenile and domestic relations court may be filed under certain circumstances to declare the student a child in need of supervision.

The principal or principal's designee notifies the parent of any student involved in an incident required to be reported to the superintendent and Virginia Board of Education.

No suspended student shall be admitted to the regular school program until such student and his parent have met with school officials to discuss improvement of the student's behavior, unless the school principal or his designee determines that readmission, without parent conference, is appropriate for the student.

If a parent fails to comply with the requirements of this policy, the School Board may ask the Juvenile and Domestic Relations Court to proceed against the parent in accordance with the requirements of the Code of Virginia.

Students are subject to corrective action for any misconduct that occurs: in school or on school property; on a school vehicle; while participating in or attending any school sponsored activity or trip; on the way to and from school; and off school property, when the acts lead to: (1) notification pursuant to the Virginia legal code § 16.1-305.1 or a conviction for an offense listed in the Virginia legal code § 16.1-260, (2) a charge that would be a felony if committed by an adult, or (3) disruption of the learning environment.

Unlawful acts which will lead to police notification and may lead to suspension from classes, exclusion from activities or expulsion include but are not limited to: possession or use of alcohol, illegal drugs, including marijuana and anabolic steroids, or drug paraphernalia; selling drugs; assault/battery; sexual assault; arson; intentional injury (bullying, fighting); theft; bomb threats, including false threats, against school personnel or school property; use or possession of explosives (see Policy JFCD Weapons in School); possession of weapons or firearms (see Policy JFCD Weapons in School); extortion, blackmail or coercion; driving without a license on school property; homicide; burglary; sex offenses (indecent exposure, obscene phone calls, sodomy and child molestation); malicious mischief; shooting; any illegal conduct involving firebombs, explosive or incendiary devices or materials, hoax explosive devices or chemical bombs; stabbing, cutting or wounding; unlawful interference with school authorities including threats; unlawful intimidation of school authorities; and other unlawful acts including being an accessory to any of these or other unlawful acts.

Any student involved in a reportable drug or violent incident shall participate in prevention and intervention activities deemed appropriate by the superintendent or superintendent's designee. Further, any student who has been found to be in possession of or under the influence of drugs or alcohol on school property or at a school sponsored activity may be required to (1) undergo evaluation for drug or alcohol abuse and (2) participate in a drug and/or alcohol treatment program if recommended by the evaluator and if the parent consents. The superintendent issues regulations listing additional actions which may be cause for corrective action and if serious enough or exhibited repeatedly may lead to suspension or expulsion.

The School Board biennially reviews the model student conduct code developed by the Board of Education to incorporate into policy a range of discipline options and alternatives to preserve a safe and non-disruptive environment for effective learning and teaching.

CODE OF CONDUCT

INTRODUCTION AND BACKGROUND

The Virginia Board of Education's Student Conduct Policy Guidelines was first developed in 1994 in response to action by the 1993 General Assembly requiring the Virginia Board of Education to establish such guidelines.¹ In 2004, the Guidelines underwent a major revision in response to requirements of § 22.1-279.6. of the *Code of Virginia*, reflecting numerous changes in state and federal laws and regulations, relevant case law, and emerging best practice principles. The *Virginia Student Conduct Policy Guidelines, 2004*, were originally adopted by the Virginia Board of Education on September 22, 2004. The *Guidelines* were updated in 2005, 2006, 2009, and 2013 to incorporate changes in state laws and regulations.

In the spring of 2015, the Center for Public Integrity (CPI) released a study reporting that Virginia led the nation in sending students from schools to police or the courts, a trend referred to as the "school-to-prison pipeline." According to the [CPI study](#), 16 students per 1,000 were referred from school to the juvenile justice system in Virginia.² This news prompted an investigation into the numbers behind the study. With the support of Governor Terry McAuliffe's Children's Cabinet, Dr. Gerard Lawson, associate professor in Virginia Tech's School of Education, led a research team to distinguish between reports to law enforcement and actual student involvement with the court system. Dr. Lawson's team concluded that the actual number of students who went to court from the Virginia schools was actually 2.4 per 1,000.³ Nonetheless, the [Lawson study](#) substantiated the CPI finding that African American students and students with disabilities were disproportionately represented in referrals to juvenile justice in Virginia schools.

Further investigation into the Department of Education's Discipline, Crime, and Violence (DCV) data, also supported the finding that disparity existed for students with disabilities and African American students. Students with disabilities and African-American students were being suspended at two times the rate of non-disabled, white students. In addition, the majority of referrals reported in DCV data are related to behaviors that fall under the subjective label of "Disruption." The data also revealed that the number of instructional days lost to suspensions and expulsions significantly affects student achievement.

With these factors in mind, the Board of Education undertook this revision to the *Student Code of Conduct Policy Guidelines*, including a change in the name of the document: *Model Guidance for Positive and Preventive Code of Student Conduct Policy and Alternatives to Suspension*. The goal of this document is to provide school boards with guidance to revise local student codes of conduct to create a positive and preventive approach to student conduct. Local school boards are required to adopt and revise regulations on codes of student conduct that are consistent with, but may be more stringent than, these *Guidelines*. As local school boards work to revise and adopt policies for codes of student conduct, keeping the USED Guiding Principles, the VTSS framework, and a positive instructional approach to behavior at the forefront will help ensure that schools are safe, supportive, and effective learning

environments.

In addition, school divisions should recognize the need for addressing the changing demographics of the student population. Students from diverse backgrounds are becoming the majority demographic group in U.S. public schools.⁴ For many students, the expectations for behavior in school may differ from the expectations at home or in the community. Students cannot be expected to intuit appropriate behavior; therefore, adults in the school are responsible for teaching and providing feedback to reinforce appropriate behavior and correct inappropriate behavior. Effective implementation of any code of conduct requires provisions that appropriate behaviors be taught, practiced across settings with feedback, reinforced, and taught again as indicated by the data. Research has shown that frequent out of school suspensions, zero-tolerance policies, and “get-tough” approaches to school safety are “ineffective and increase the risk for negative social and academic outcomes, especially for children from historically disadvantaged groups.”⁵ The 2017-2018 revision was undertaken to create a document that:

- Focuses on prevention;
- Recognizes the need for instructional interventions and behavioral supports when students do not meet behavioral expectations; and
- Defines equitable approaches to school discipline.

Approaching school discipline from an instructional prevention-based standpoint contributes to a positive school environment and ensures equity, fairness, and continuous improvement. Applying an instructional, prevention-based perspective to student behavior is fundamental in a multi-tiered system of support. In Virginia, the Virginia Tiered Systems of Supports (VTSS) provides a framework that allows divisions, schools, and communities to provide multiple levels of supports to students in a more effective and efficient, clearly defined process. It is a data-driven decision making framework for establishing the academic, behavioral, and social-emotional supports needed for a school to be an effective learning environment for all students.

The Virginia Department of Education working with a diverse group of stakeholders developed the *Model Guidance for Positive and Preventive Code of Student Conduct Policy and Alternatives to Suspension*. To create local student conduct policies, school division leaders should work with staff, students, families, community based organizations, and other stakeholders to accurately assess a school’s climate and the current status of school discipline, develop a shared vision for what it should be, and establish policies and practices to create a positive school environment where students and staff feel safe and supported.⁶ School board student conduct policies should reflect efforts to address identified needs and ensure equity for all students. These Guidelines are intended specifically to aid school boards in revising and implementing student conduct policies as the *Code of Virginia* requires. Local school boards are required

Establishing a Purpose for Student Code of Conduct Policy

The *Code of Virginia* requires that the Board of Education provide model policy guidelines for local school divisions to use in developing a local student code of conduct. The purpose of this document is to guide school boards to establish a policy that:

1. Promotes a vision for improving conditions for learning so that all students experience a safe, supportive school environment that allows them to acquire the attributes outlined in the Virginia Board of Education's Profile of a Graduate.⁷
2. Advocates for professional learning for school staff and allocates resources to implement the local division's code of conduct using data to analyze and address challenges and successes.
3. Promotes the development of local division codes of conduct that clearly articulate expectations for student and adult behavior to enhance school safety and create equitable, supportive school environments.
4. Focuses on prevention and provides a leveled system of responses to discipline incidents that uses instructional, restorative, and age-appropriate responses before resorting to exclusionary practices while respecting the social-emotional development of children at elementary, middle, and high school.
5. Provides that all students who are removed from the classroom for disciplinary reasons are able to access services for a quality education and behavioral interventions needed to ensure their successful return to the setting from which they were removed.
6. Encourages partnerships with students and their families; behavioral health, child welfare, and juvenile justice professionals; law enforcement agencies; and other community members to assess and improve the school climate and conditions for learning.⁸

Legal Base

Statutory Authority for Guidelines

The Virginia Board of Education is required by law (§ 22.1-279.6. of the *Code of Virginia*) to establish guidelines and develop model policies for codes of student conduct to aid local school boards in the implementation of such policies.

Authority and Duties of School Boards

Section 22.1-253.13:7.D.3. of the *Code of Virginia* (part of the section known as the Standards of Quality) requires local school boards to maintain and follow an up-to-date policy manual that includes "standards of student conduct and attendance and enforcement procedures designed to provide that public education be conducted in an atmosphere free of disruption and threat to persons or property and supportive of individual rights." Local school boards should collaboratively develop programs and policies to prevent violence and crime on school property and at school-sponsored events, taking into

account the views of all stakeholders and evaluating the implications of policies on conditions for learning to improve student achievement.⁹

a. *School Board Regulations*

Section 22.1-78. of the *Code of Virginia* authorizes local school boards to adopt bylaws and regulations “for its own government, for the management of its official business and for the supervision of schools, including but not limited to the proper discipline of students, including their conduct going to and returning from school.”¹⁰ Regulations on codes of student conduct should be consistent with, but may be more stringent than, the guidelines of the Board. The tables of Leveled Responses to Student Behaviors in Section II.6 of this document are intended to provide school divisions with a leveled system of student conduct descriptors, interventions, and disciplinary responses that include the requirements in the *Code of Virginia*. In general, local school board regulations governing student code of conduct must be reviewed biennially and must address the following:

Discipline options and alternatives to preserve a safe, non-disruptive environment for effective teaching and learning; Procedures for suspension, expulsion, and exclusion decisions; Prohibitions against hazing and profane or obscene language or conduct; At the local board’s discretion, regulations regarding certain communications devices; Requirements, if any, regarding drug testing, including guidance for procedures relating to voluntary and mandatory drug testing in schools; Alcohol and drug possession and use; Search and seizure; Gang-related activity; Vandalism; Trespassing; Threats; Disciplining of students with disabilities; Intentional injury of others; Self-defense; Bullying, including the use of electronic means for purposes of bullying, harassment, and intimidation; Prohibition on possessing electronic cigarettes/vapor devices on a school bus, on school property, or at a school-sponsored activity; Standards to ensure compliance with the federal *Improving America’s Schools Act of 1994* (Part F-*Gun-Free Schools Act of 1994*), as amended, in accordance with § 22.1-277.07; Dissemination of such policies to students, their parents, and school personnel; and Standards for in-service training of school personnel in and examples of the appropriate management of student conduct and student offenses in violation of school board policies

PREVENTIVE AND POSITIVE APPROACHES TO DISCIPLINE

Tiered Systems of Support

Tier 1 or Universal Supports

A multi-tiered system of support includes prevention strategies at Tier 1 to establish positive expectations and the systems to teach and reinforce those expectations. The universal components needed to create a learning environment that reduces the use of punitive, exclusionary practices are listed below.

Components of Schoolwide Prevention at Tier 1 <ul style="list-style-type: none">• Establishing and teaching core behavioral expectations,• Aligned school counseling program,• Family engagement practices,• Challenging, engaging academic curriculum,• Social-emotional Curriculum,• Health curriculum,• Bullying prevention,• Restorative approaches to relationship building and problem solving, and• Professional Learning Opportunities (PLO).	Everyone in the school is responsible for teaching and modeling core expectations, though specific groups of adults may hold more responsibility for some components. For example, classroom teachers might be responsible for explicitly teaching behavioral expectations, but the school administrative and support staff must model and reinforce appropriate behaviors. Lunchroom monitors may teach the application of the core expectations in the lunchroom, gym teachers in the gym, art teachers in the art room, etc. School programming is designed to support students' academic and social-emotional development. A Student Assistance Programming Team (SAPT) or other school-based team analyzes data regularly. School climate surveys are conducted and used with other data sources to determine needs and set priorities.
--	--

Tier 2 or Targeted Interventions and Supports

Tier 2 or Targeted Supports are developed based on data analysis to determine what types of supports some students need to meet behavioral expectations. For example, the data may indicate a need for bullying prevention intervention, substance abuse counseling, anger management, or self-management. Each school will determine the appropriate targeted supports. Resources for providing Tier 2 supports may come from community service providers and other government agencies. School divisions are encouraged to develop memoranda of understanding with other agencies to improve Tier 2 and 3 supports. Targeted Supports include the components listed below.

Components of Tier 2 or Targeted Interventions and Supports <ul style="list-style-type: none">• Meet the core behavioral expectations,• Develop social-emotional skills, mindsets, and behaviors,• Improve academic achievement,• Improve physical and/or mental health,• Address substance abuse issues,• Restore balance to situations caused by misconduct,• Address bias,• Address Adverse Childhood Experiences (ACEs), and• Engage families	A school-developed team manages Tier 2 by assessing needs for targeted group instruction and needed supports. Teams include staff best situated to gather data, identify students who need targeted interventions, and provide access to the interventions. Student Assistance Team, Student Intervention Team, Student Support Team are all names given to this type of team. Students who participate in these programs are monitored to ensure the effectiveness of the intervention. **Staff trained in special education services and behavioral intervention services may provide supports at this level, but not all students who need Tier 2 supports are students with disabilities. Students who have experienced trauma or adverse childhood experiences may need targeted supports as well. Those students for whom the Tier 2 intervention is not effective may be referred for an intensive intervention, the next tier of support service.
--	---

When a student is referred to a school administrator for a disciplinary incident, the administrator may determine that a targeted support is needed in addition to or in lieu of a disciplinary consequence. The administrator should follow a process of investigation and decision-making that keeps the ASCD Whole Child Tenets in mind. Local school divisions are encouraged to design an investigative and decision-making process to assist school administrators in the investigation and to ensure that students are treated equitably within a system that values safety and support.

Tier 3 or Intensive Interventions and Supports

Tier 3 supports are individualized and based on the needs of a single student. Approximately five percent of students in any school population may need Tier 3 supports. A school that exceeds this percentage of students receiving intensive supports should re-visit school data regarding Tier 1 and 2 supports to determine their effectiveness. Placing students in an alternative

setting is a Tier 3 intervention and should include a specific plan to allow the student to return to his or her home school.

Components of Tier 3 or Intensive Interventions and Supports Wraparound strategies to assist student/family in: <ul style="list-style-type: none">• Meeting core behavioral expectations• Developing social-emotional skills, mindsets, and behaviors• Improving academic achievement• Improving physical and/or mental health• Restoring balance to situations caused by misconduct• Addressing Adverse Childhood Experiences (ACEs)• Addressing bias	Mental health, counseling, and community resource providers may be involved in providing supports. Students who display chronic behavioral or academic problems are assessed and an individualized plan is developed to meet their needs and promote achievement. Staff trained in special education services and behavioral intervention services may provide supports at this level, but not all students who need Tier 3 supports are students with disabilities. Students who have experienced trauma or adverse childhood experiences may need intensive supports as well.

Clear Objective Behavioral Expectations

Using a process for collecting and analyzing academic, behavior, attendance, and other available data, local school boards should develop policy and allocate resources for a defined set of instructional and prevention based practices that define, teach, and reinforce clear, objective behavioral expectations. Such practices ensure equity, as defined in policy, and consistency across schools within the division.

Through this policy, school divisions should support schools' use of data to clearly define a set of three to five positively stated, school wide (and aligned classroom), social-emotional and behavioral expectations. These expectations define how staff and students learn, work, and interact in order to establish the positive school climate outlined in school vision and mission statements and/or strategic planning documents. They are, in essence, the curriculum for developing a positive community. As such, this curriculum should be taught, reinforced, prompted, re-taught, and have a continuum of procedures for instructional behavior correction as would be available for the academic curriculum. Parent, student, and community involvement in the development of expectations is critical and expected.

Social-Emotional Learning (SEL)

Social-emotional learning has been attributed to positive attitudes about school and to significant improvement in academic achievement. The Collaborative for Social and Emotional Learning ([CASEL](#)) produced a review which found that students who participated in a social-emotional learning program “demonstrated significantly improved social and emotional skills, attitudes, behavior, and academic performance that reflected an 11-percentile-point gain in achievement” over the control group.¹¹

Learning social-emotional skills is vital to student development and is directly related to Virginia's Profile of a Graduate, which expects students to demonstrate the “Five C's:” critical thinking, creative thinking, communication, collaboration, and citizenship. A Virginia high school graduate should be able to:

1. Achieve and apply appropriate academic and technical knowledge;
2. Attain and demonstrate productive workplace skills, qualities and behaviors;
3. Build connections and value for interactions with diverse communities; and

¹¹ Durlak, Joseph A; Weissberg, Roger P; Dymnicki, Allison B.; Taylor, Rebecca D. and Schellinger, Kriston B. [The Impact of Enhancing Students' Social Emotional Learning: A Meta-Analysis of School-based Universal Interventions](#). *Child Development Journal*, Jan.-Feb. 2011 vol. 82. #1, pages 405-432.

4. Align knowledge, skill, and personal interests with career opportunities.¹²

In order to achieve the goals of Virginia's Profile of a Graduate, students need to develop the following social-emotional competencies:

1. Self-awareness,
2. Self-management,
3. Social awareness,
4. Relationship skills, and
5. Responsible decision-making.¹³

Student Behavior Categories The following behavior categories are designed to recognize the impact student behavior has on the school environment and on learning. They encourage awareness for administrators, teachers, parents, and counselors of students' social-emotional development and emphasize the importance of helping students achieve academically and develop SEL competencies.

- | |
|---|
| A. Behaviors that Impede Academic Progress (BAP): These behaviors impede academic progress of the student or of students. They are typically indicative of the student's lack of self-management or self-awareness. Sometimes, the student may need help in understanding how the behavior impacts others so training in social awareness may also be indicated. |
| B. Behaviors Related to School Operations (BSO): These behaviors interfere with the daily operation of school procedures. Students exhibiting these behaviors may need to develop self-management, self-awareness, or social awareness skills. |
| C. Relationship Behaviors (RB): These behaviors create a negative relationship between two or more people that does not result in physical harm. Relationship behaviors affect the whole school community in that the school climate is often a reflection of how people treat one another. Students who exhibit difficulty with relationship behaviors may also have difficulty with the other social-emotional competencies. |
| D. Behaviors that Present a Safety Concern (BSC): These behaviors create unsafe conditions for students, staff, and visitors to the school. The underlying reasons for this type of behavior may lie in any of the social-emotional competencies so the administrator should investigate the underlying motivation for the student's behavior. Training in social awareness and decision-making are usually indicated in any behavior that creates a safety concern. |
| E. Behaviors that Endanger Self or Others (BESO): These behaviors endanger the health, safety, or welfare of either the student or others in the school community. Behaviors that rise to this level of severity are often complex. While they are indicative of poor decision-making skills, students who exhibit these behaviors may also have developmental needs in the other social-emotional competencies. |

The categories are a means to sorting behaviors in order to apply leveled administrative responses to student behaviors. The *Standards of Student Conduct* section provides examples of how the behavior categories work with leveled administrative responses.

Leveled Systems of Disciplinary Responses and Instructional Interventions

In an effective approach to intervention and discipline, when students do not meet behavioral expectations, they receive supports to address the root causes of the behavior and learn appropriate alternatives. When a specific student behavior does not change following an intervention—or the behavior increases in frequency, intensity, or duration—a problem solving approach identifies alternative interventions and responses. All stages of a system of intervention should include opportunities for learning acceptable replacement behaviors within the school and community and access to interventions to address the underlying causes of behavior.

Delivering disciplinary responses to unwanted behaviors is often needed but never a sufficient strategy for reducing inappropriate behavior. Therefore, leveled systems of disciplinary responses should always be only one part of more comprehensive policy around behavior that includes instructional, preventive, and proactive strategies as described earlier in this document. The delivery of disciplinary responses should only serve four key functions:

- preventing a negative behavior from being rewarded;
- preventing a problem behavior from escalating;
- preventing a problem behavior from significantly interrupting instruction; and
- preventing physical and/or social-emotional harm to others.

Equitable Processes for Managing Student Behavior

Division policies should include an explanation of and guidance for the use of positive, proactive, preventive, evidenced-based approaches to respond to student behavioral incidents that include appropriate teacher responses. As with academic error correction and feedback, responses to student behavior are anchored in an instructional approach that emphasizes teaching and the modeling of desired behaviors in a supportive classroom environment. A combination of teacher and administrative responses should be used with the goal of preventing misbehavior from occurring, encouraging positive student behavior, developing social-emotional skills, and maximizing academic instructional time.

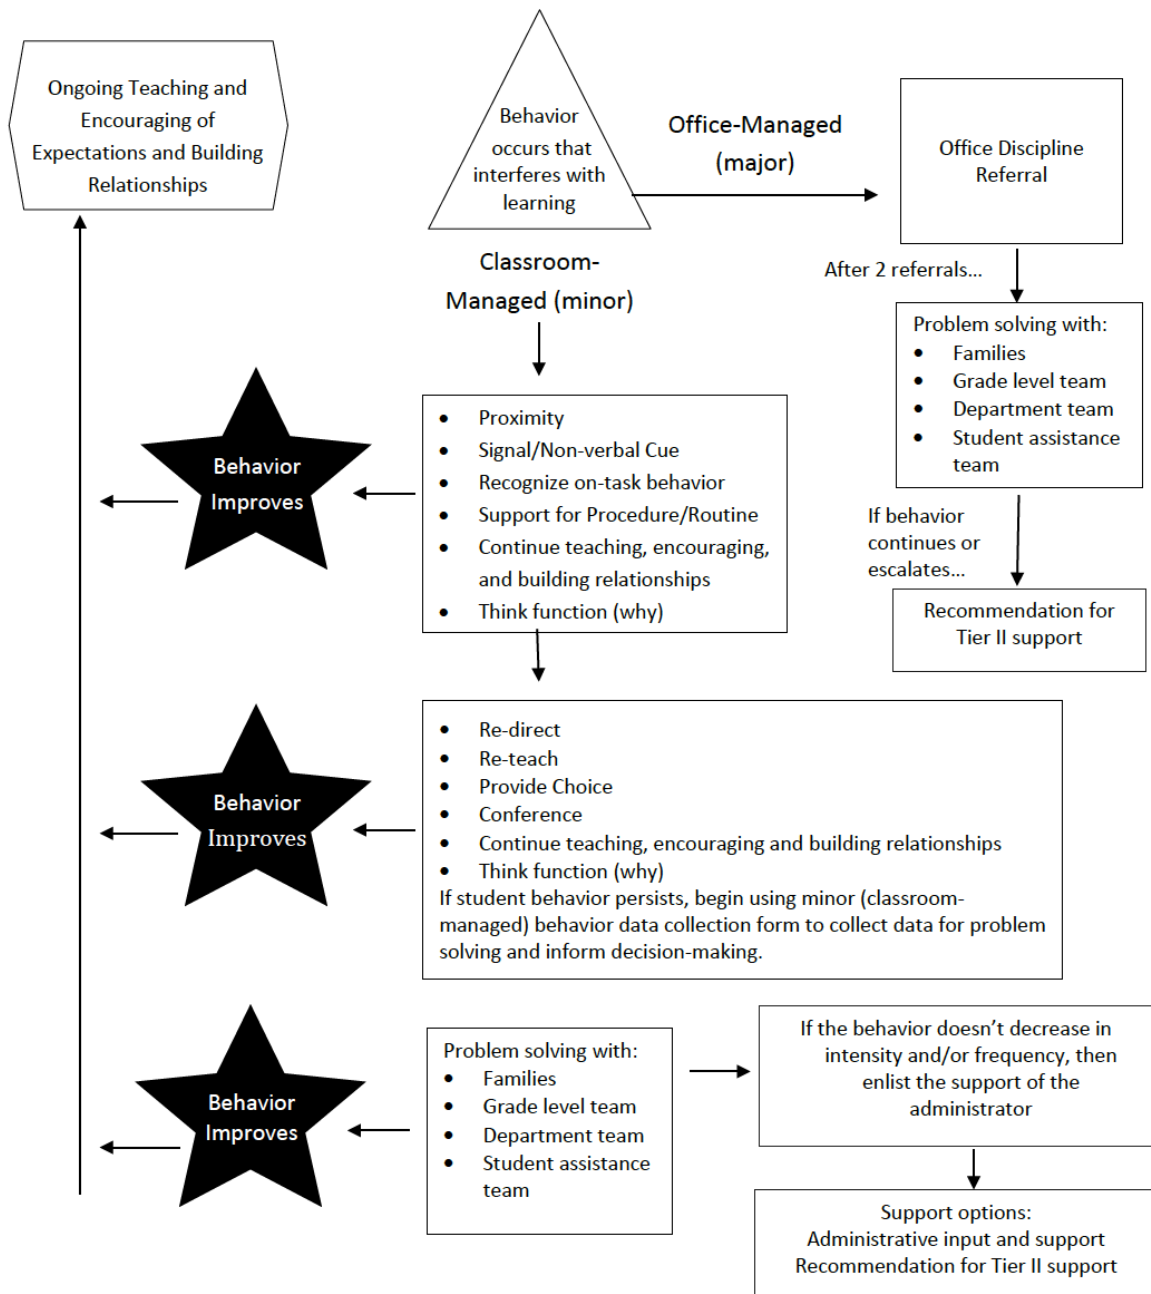

Principals and leadership teams are responsible for engaging staff in data informed decision-making that identifies student behaviors that are teacher managed versus those that are administrator managed. Such decisions must then be documented in writing and include an explanation of the processes and procedures for addressing student behavior. Effective evidence-based responses within the classroom-managed and administrator-managed categories should be delineated within a table or flowchart. They should be disseminated, taught, and reinforced to the entire school community. Uniform definitions and decision rules applied consistently are essential to ensuring equitable application of disciplinary actions across teachers, grades, and school buildings within a division. Examples of both a flowchart and table of teacher responses follow. Sample Investigative Decision-Making Process

The administrator will:

1. Determine if the behavior is an office-managed behavior (See the Discipline Process Flow Chart on page 33). If it is a teacher-managed behavior, consult with the teacher, team, school counselor, or other personnel on appropriate next steps.
2. Gather information to determine the complete picture of the situation, including statements from the student(s).
3. Identify contributing factors and existing data and/or previous interventions.
4. Consult the regulations for students with disabilities, if the student is identified as having a disability.
5. Communicate with the family to inform and gather information.
6. Consider whether contributing factors, data, or previous interventions indicate that a support or intervention is appropriate for the student.
7. Refer the student to the support services or restorative justice intervention, if supports are indicated.
8. Label the behavior according to the behavior descriptors; assign the appropriate level of consequence, if disciplinary consequences are indicated.
9. Inform families of results of the investigation, the discipline consequence, and the academic and behavioral interventions that will be provided.
10. Document all interventions and consequences.
11. Notify the Superintendent Designee and Law Enforcement as required by policy.
12. Initiate a Threat Assessment, as indicated or required.
13. Follow through on the recommendations from the Threat Assessment Team.

Develop an action plan to provide for the student's academic and behavioral needs during the suspension or expulsion if the student is long-term suspended or expelled.

Teacher Responses to Manage Student Behaviors

Prior to administrative involvement in student behavior issues, teachers are responsible for supporting students in acquiring the behaviors expected in the school environment. Below are examples of proactive and instructional teacher actions to assist students in meeting behavioral expectations. Teachers have the authority to remove a student from a class for disruptive behavior in accordance with [§ 22.1-276.2](#) of the *Code of Virginia*. Local school boards should establish the process as outlined in the *Code*.

Examples of Proactive Teacher Supports for Classroom Managed Behaviors:

- Develop, teach, and maintain clearly defined classroom expectations that are consistent with school wide behavioral expectations and applicable across all classroom settings at all times.
- Build positive relationships with students and families.
- Model and practice expectations in the appropriate settings.
- Reteach/review expectations throughout the school year (i.e., quarterly, after breaks).
- Use pre-correction strategies to remind students of expectations before transitioning between tasks/assignments.
- Use more positive than corrective statements (4:1 ratio).
- Create a classroom acknowledgement system to increase responsible student behavior.
- Implement effective, evidence based instructional practices match to student learning needs.
- Actively engage students in the teaching and learning process.
- Teach prevention lessons that address students' social-emotional competencies. Teach lessons that apply the competencies to situations (i.e., bullying, suicide awareness and prevention, workplace skills, citizenship, character education).
- Flexible classroom arrangements/seating.

Examples of Instructional Teacher Responses for Classroom Managed Behaviors:

- Restructure/revise classroom practices based upon student needs.
- Adjust pacing of instruction to increase on-task behavior.
- Actively observe and plan for ignoring low-level misbehavior.
- Change student seating.
- Provide immediate positive feedback when students engage in expected behavior.
- Respond calmly, restating the desired behavior.
- Use progress-monitoring tools (i.e., behavior chart that includes the replacement behavior, on-task monitoring form, reflection sheets).
- Communicate and collaborate with parents/guardians and the student's counselor and/or case manager regarding student behavior, teacher-based actions, and to problem solve.
- Reteach desired behavior.
- Problem-solve the behavior during a teacher-student conference using active listening.
- Establish and consistently implement corrective responses to student misbehavior [i.e., positive practice, community service, restitution, loss of time for a valued activity, in-class time out (not to exceed ten minutes), time-out in another class under adult supervision, loss of privileges].
- Facilitate restorative practices with the student and person(s) affected by the student's behavior.
- Assign a working lunch to facilitate re-teaching or making up missed work (ex: lunch with teacher to catch up on work, review a social story, and reteach behavior).

Administrative responses and interventions should be designed to address student behavior, reinforce school and classroom expectations for appropriate behavior, and prevent further behavioral issues. The following levels of administrator responses go hand-in-hand with tiered supports, which are more fully described in the *Guidelines for the Reduction of Exclusionary Practices*. Neither is intended to be the sole response to student discipline incidents. The following lists of leveled administrative responses to student behavior are provided as an example of a leveled system of discipline responses.

Level 1 Responses:

Level 1 responses are intended to prevent further behavioral issues while keeping the student in school.

- Re-teaching or modeling of desired behavior
- Recognize/Reward appropriate behavior
- Administrator/Student conference and/or Administrator/Student/Teacher conference
- Written reflection or letter of apology
- Peer mediation or conflict resolution
- Behavior progress chart
- Community service (appropriate to correct the behavior)
- Restitution
- Seat change
- Loss of school privileges
- Confiscation by the administration
- Administrator/Teacher/Parent/Guardian conference
- Detention (before school, at lunch, after school)
- In-school suspension (Up to one-two days) with behavioral instruction and academic support

Level 2 Responses:

Administrative responses and interventions at this level are designed prevent further behavior issues and keep the student in school. Depending upon the severity of the behavior, short-term removal of the student from the classroom may be appropriate.

- Student conference
- Administrator/Teacher/Counselor/Student conference (includes re-teaching of expected behavior)
- Administrator/Teacher/Parent/Guardian conference
- Check-In/Check-Out
- Mediation or conflict resolution
- Detention (before school, at lunch, after school)
- Referral to support services (e.g., School Counselor, Behavior Interventionist, Mentor Program, and Problem Solving Team (ex. VTSS), Substance Use and Intervention Program)
- Referral to Individualized Education Plan (IEP) Team
- Schedule change
- Community service (appropriate to correct the behavior)

Level 4 Responses:

Some Level 4 behaviors require a report to the superintendent or superintendent's designee as outlined in the *Code of Virginia* § 22.1-279.3:1. Local school board policy may require additional reporting. A referral to the superintendent or superintendent's designee does not automatically result in a long-term suspension, change of placement or expulsion. After a review of the incident in context, the superintendent or designee may return students to the comprehensive setting with additional supports and/or responses to be implemented.

Level 5 Responses:

Level 5 responses are reserved for those behaviors that require a referral to the superintendent or designee. For preschool to grade three students, any suspension beyond three days must be referred to the superintendent. A referral to the superintendent or designee may not automatically result in an expulsion, alternative placement, school reassignment, or long-term suspension.

*SB (Senate Bill) 170 - Prohibits, except for drug offenses, firearm offenses, and certain criminal acts, students in preschool through grade three from being suspended for more than three school days or expelled from attendance at school unless (i) the offense involves physical harm or credible threat of physical harm to others or (ii) the local school board or the division superintendent or his designee finds that aggravating circumstances exist, as defined by the Department of Education.

DUE PROCESS (PPS Policy JFA)

Due process requires that a student be given oral or written notice of the charges against him/her; an explanation of the evidence used to support the charges, and an opportunity to present his/her side of the story before privileges are denied. Due process also includes oral and written notification to a parent/guardian or any incident report of disruptive behavior, of any short term out of school suspension, in school suspension/detention, or after school detention and prior to suspension of a student with a recommendation to the Disciplinary Hearing Committee. The student, parent/guardian has the right to appeal a suspension.

Any student whose presence poses a continuing danger to persons or property, or presents an ongoing threat of disruption may be removed from school immediately.

SHORT-TERM SUSPENSIONS (JGD/JGE) A student may be suspended for not more than ten school days by either the school principal, any assistant principal, or, in their absence, any teacher. The principal, assistant principal or teacher may suspend the student after giving the pupil oral or written notice of the charges against him and, if he denies them, an explanation of the facts as known to school personnel and an opportunity to present his version of what occurred. In the case of any student whose presence poses a continuing danger to persons or property, or whose presence is an ongoing threat of disruption, the student may be removed from school immediately and the notice, explanation of facts and opportunity to present his version shall be given as soon as is practical thereafter. Short-Term Appeal Process –Once a student is suspended, there are two options. The student or parent may remain silent and accept the suspension. The student or parent may appeal the suspension. If the student or parent appeals: The student or parent must file a written request for an appeal to the building administrator/designee within two (2) school days of the suspension. This appeal request must specifically identify the nature of the appeal, such as the number of days is too high, or the student did not engage in the behavior, etc. Statements such as “not fair” or “the Principal does not like me” are not valid reasons to appeal a suspension. Within two (2) school days of receipt of the written request the building administrator/designee will meet with the student and parent to hear the appeal. The building administrator/designee will notify the parent of the decision within two (2) school days after the appeal. A letter stating the decision will be mailed to all parties, but the parent is encouraged to contact the school by phone for the decision. The student or parent may appeal the building administrator/designee’s decision by filing a written request for an appeal to the Superintendent/designee within two (2) school days of receipt of the notice of the building administrator/designee’s decision (verbal or written).

LONG-TERM SUSPENSION (JGD/JGE) A student may be suspended from attendance at school for more than ten days after written notice is provided to the pupil and his parent of the proposed action and the reasons therefore and of the right to a hearing before the School Board or the superintendent or superintendent’s designee/hearing committee. The decision of the superintendent or superintendent’s designee may be appealed to the full School Board. Such appeal shall be decided by the School Board within thirty days. The written notice of a suspension for more than ten days includes notification of the length of the suspension and provides information concerning the availability of community-based educational, alternative education or intervention programs. Such notice also states that the student is eligible to return to regular school attendance upon the expiration of the suspension or to attend an appropriate alternative education program approved by

the School Board during or upon the expiration of the suspension. The costs of any community-based educational, alternative education, or intervention program that is not a part of the educational program offered by the school division that the student may attend during his suspension is borne by the parent of the student. Nothing herein shall be construed to prohibit the School Board from permitting or requiring students suspended pursuant to this section to attend an alternative education program provided by the School Board for the term of such suspension.

When a building administrator/designee is considering long-term suspension, it is suggested that the Notice of Suspension specify that a recommendation for long-term suspension is being considered. The Superintendent/designee shall provide for a hearing for the student and the parent on or before day nine (9) of the suspension. The Superintendent/designee/hearing committee shall review the evidence presented at the hearing and shall determine whether to affirm, modify, or disapprove the building administrator/designee's recommendation. The Superintendent/designee shall provide a written decision on or before day ten (10) of the suspension. The parent shall have five (5) school days from the Superintendent/designee's decision to file a written request for an appeal to the School Board, if desired. The student and his/her parents shall be notified of the date when the School Board will meet and act on the recommendation. Hearings will be held in closed session.

EXPULSION (JGD/JGE) Generally Students may be expelled from attendance at school after written notice to the pupil and his parent of the proposed action and the reasons therefor and of the right to a hearing before the School Board in accordance with the regulations of the School Board. The School Board confirms or disapproves of the proposed expulsion regardless of whether the pupil has exercised the right to a hearing. The written notice given to the pupil and his parent includes notification of the length of the expulsion and provides information to the parent of the student concerning the availability of community-based educational, training and intervention programs. The notice also states whether or not the student is eligible to return to regular school attendance, or to attend an appropriate alternative education program approved by the School Board, or an adult education program offered by the school division, during or upon the expiration of the expulsion, and the terms or conditions of such readmission. The costs of any community-based educational, training, or intervention program that is not a part of the educational program offered by the school division that the student may attend during his expulsion is borne by the parent of the student. Nothing in this policy shall be construed to prohibit the School Board from permitting or requiring students expelled pursuant to this Policy to attend an alternative education program provided by the School Board for the term of such expulsion. If the School Board determines that the student is ineligible to return to regular school attendance or to attend during the expulsion an alternative education program or an adult education program in the school division, the written notice also advises the parent of such student that the student may petition the School Board for readmission to be effective one calendar year from the date of his expulsion, and of the conditions, if any, under which readmission may be granted. The School Board establishes, by regulation, a schedule pursuant to which such students may apply and reapply for readmission to school. Such schedule is designed to ensure that any initial petition for readmission will be reviewed by the School Board or the superintendent, and, if granted, would enable the student to resume school attendance one calendar year from the date of the expulsion. If the superintendent denies such petition, the student may petition the School Board for review of such denial.

An expulsion recommendation follows the process for long-term suspension. The parent shall have five (5) school days from the Superintendent/designee's notice of decision to file a written request for an appeal, if desired. The School Board shall establish a date, time and place for the appeal hearing to ensure that a decision is made within thirty (30) days of the Superintendent/designee's decision. Hearings will be held in closed session.

ATTENDANCE (JED)

I. Student Attendance Policy

Student attendance is a cooperative effort and the School Board shall involve parents and students in accepting the responsibility for good attendance.

Each parent/guardian or person having control or charge of a child within the compulsory attendance age shall be responsible for such child's regular and punctual attendance at school as required under provisions of the law.

A reasonable effort shall be made to contact a parent/guardian of each absent student every day, and to obtain an explanation for the student's absence, where there is no indication that the student's parent is aware of and supports the absence. A log will be kept of call attempts.

Students who are absent must bring a valid note stating the reason for absence upon returning to school. Unexcused absences shall be handled according to regulations issued by the superintendent.

The Division Superintendent's regulations will include procedures for excusing students who are absent by reason of observance of a religious holiday. Such regulations will ensure that a student is not deprived of any award or of eligibility or opportunity to compete for any award, or of the right to take an alternate test or examination, which he missed by reason of such absence, if the absence is verified in an acceptable manner.

Students shall attend school for a full day unless otherwise excused. Secondary students shall be scheduled for a full school day unless they are enrolled in a cooperative work-study program. All other exceptions to a full day schedule must be approved on an individual basis by the superintendent or designee.

Nothing in this policy shall be construed to limit in any way the authority of any attendance officer or the division superintendent to seek immediate compliance with the compulsory school attendance law.

II. Compulsory Attendance Procedures

A. Upon Fifth Absence Without Parental Awareness and Support If (1) a student fails to report to school for a total of five scheduled school days for the school year, and (2) there is no indication that the student's parent is aware of and supports the absence; and (3) reasonable efforts to notify the parent of the absences have failed, then the Principal or his designee or the attendance officer shall make a reasonable effort to ensure that direct contact is made with the parent, either in person or through telephone conversation, to obtain an explanation for the pupil's absence and to explain to the parent the consequences of continued nonattendance. The school principal or his designee or the attendance officer, the pupil, and the pupil's parent shall jointly develop a plan to resolve the pupil's nonattendance. Such plan shall include documentation of the reasons for the pupil's nonattendance.

B. Upon Sixth Absence Without Parental Awareness and Support If the pupil is absent an additional day after direct contact with the pupil's parent and the attendance officer has received no indication that the pupil's parent is aware of and supports the pupil's absence, either the school principal or his designee or the attendance officer shall schedule a conference within ten school days, which must take place no later than the fifteenth school day after the sixth absence. At the conference, the pupil, his parent, and school personnel, shall meet to resolve issues related to the pupil's nonattendance. Other community service providers may

also be included in the conference.

C. Upon Additional Absence Without Parental Awareness and Support Upon the next absence after the conference without indication to the attendance officer that the pupil's parent is aware of and supports the pupil's absence, the Principal or designee shall notify the attendance officer or Superintendent or his designee who shall enforce the compulsory attendance rules by either or both of the following: (1) filing a complaint with the juvenile and domestic relations court alleging the pupil is a child in need of supervision as defined in § 16.1-228 or (2) instituting proceedings against the parent pursuant to § 18.2-371 or § 22.1-262. In filing a complaint against the student, the attendance officer shall provide written documentation of the efforts already undertaken to resolve the pupil's absence. If the student's parents have joint physical custody of the student and the school has notice of the custody arrangement, then both parents shall be notified at their last known addresses.

D. Parental Cooperation in Remediating Excessive Unexcused Absences It is expected that parents will cooperate with the attendance officer and other school officials to remedy the student's attendance problem. Where direct contact with a parent cannot be made, despite reasonable efforts, or where parents otherwise fail to cooperate in remediating the student's attendance problem, the superintendent or the superintendent's designee may seek immediate compliance with the compulsory school attendance laws. The attendance officer, with the knowledge and approval of the Division Superintendent, shall institute proceedings against any parent who fails to comply with the requirements of the compulsory attendance laws. Where the complaint arises out of the parent's failure to comply with the requirements of § 22.1-258, the attendance officer shall document the school division's compliance with this Code section.

III. Report for Suspension of Driver's License In addition to any other actions taken pursuant to this policy, if a student who is under 18 years of age has 10 or more unexcused absences from school on consecutive school days, the principal may notify the juvenile and domestic relations court, which may take action to suspend the student's driver's license.

IV. Attendance Reporting Student attendance shall be monitored and reported as required by state law and regulations. At the end of each school year, each public school principal shall report to the Superintendent the number of students by grade level for whom a conference was scheduled pursuant to Part II (B) above. The Division Superintendent shall compile this information and provide it annually to the Superintendent of Public Instruction.

V. Dismissal Precautions Principals shall not release a student during the school day to any person not authorized by the student's parent/guardian to assume responsibility for the pupil. Students shall be released only on request and authorization of parent or guardian. The Division Superintendent shall provide procedures for release of students who are not residing with or under the supervision of a parent/guardian. The burden of proof on the authority of the person to receive the student is on the requesting party. A formal check-out system shall be maintained in each school.

SUMMARY OF ATTENDANCE LEGISLATION

22.1-258. Appointment of attendance officers; notification when pupil fails to report to school.

Every school board shall have power to appoint one or more attendance officers, who shall be charged with the enforcement of the provisions of this article. Where no attendance officer is appointed by the School Board, the division superintendent shall act as Attendance Officer. Whenever any pupil fails to report to school on a regularly scheduled school day and no indication has been received by school personnel that the pupil's parent is aware of and supports the pupil's absence, a reasonable effort to notify by telephone the parent to obtain an explanation for the pupil's absence shall be made by the attendance officer, other school personnel, or volunteers organized by the school administration for this purpose. Any such volunteer shall not be liable for any civil damages for any acts or omissions resulting from making such reasonable efforts to notify parents and obtain such result of gross negligence or willful misconduct. This subsection shall not be construed to limit, withdraw, or overturn any defense or immunity already existing in statutory or common law or to affect any claim occurring prior to the effective date of this law. School divisions are encouraged to use non-instructional personnel for this notice.

Whenever any pupil fails to report to school for a total of five scheduled school days for the school year and no indication has been received by school personnel that the pupil's parent is aware of and supports the pupil's absence, and a reasonable effort to notify the parent has failed, the school principal or his designee shall make a reasonable effort to ensure that direct contact is made with the parent, either in person or through telephone conversation, by the attendance officer to obtain an explanation for the pupil's absence and to explain to the parent the consequences of continued nonattendance. The attendance officer and the pupil's parent shall jointly develop a plan to resolve the pupil's nonattendance.

If the pupil is absent an additional day after the direct contact with the pupil's parent and the attendance officer has received no indication that the pupil's parent is aware of and supports the pupil's absence, the attendance officer shall schedule a conference within ten school days with the pupil, his parent, and school personnel, which conference may include other community service providers, to resolve issues related to the pupil's nonattendance. The conference shall be held no later than fifteen school days after the sixth absence. Upon the next absence by such pupil without indication to the attendance officer that the pupil's parent is aware of and supports the pupil's absence, the school principal or his designee shall enforce the provisions of this article by either or both of the following (i) filing a complaint with the juvenile and domestic relations court alleging the pupil is a child in need of supervision as defined in 16.1-228 or (ii) instituting proceeding against the parent pursuant to 18.2-371 or 22.1-262. In filing a complaint against the student, the attendance officer shall provide written documentation of the efforts to comply with the provisions of this section. In the event that both parents have been awarded joint physical custody pursuant to 20124.2, and the school has received notice of such order, both parents shall be notified at the last known addresses of the parents.

Nothing in this section shall be construed to limit in any way the authority of any attendance officer or division superintendent to seek immediate compliance with the compulsory school attendance law as set forth in this article.

§ 22.1-254. Compulsory Attendance Required; Excuses and Waivers; Alternative Education Program Attendance; Exemptions from Article

A. Except as otherwise provided in this article, every parent, guardian, or other person in the Commonwealth having control or charge of any child who will have reached the fifth birthday on or before September 30 of

any school year and who has not passed the eighteenth birthday shall, during the period of each year the public schools are in session and for the same number of days and hours per day as the public schools, send such child to a public school or to a private, denominational or parochial school or have such child taught by a tutor or teacher of qualifications prescribed by the Board of Education and approved by the division superintendent or provide for home instruction of such child as described in § 22.1-254.1.

As prescribed in the regulations of the Board of Education, the requirements of this section may also be satisfied by sending a child to an alternative program of study or work/study offered by a public, private, denominational or parochial school or by a public or private degree-granting institution of higher education. Further, in the case of any five-year-old child who is subject to the provisions of this subsection, the requirements of this section may be alternatively satisfied by sending the child to any public educational pre-kindergarten program, including a Head Start program, or in a private, denominational or parochial educational pre-kindergarten program.

Instruction in the home of a child or children by the parent, guardian or other person having control or charge of such child or children shall not be classified or defined as a private, denominational or parochial school.

The requirements of this section shall apply to (i) any child in the custody of the Department of Juvenile Justice or the Department of Corrections who has not passed his eighteenth birthday and (ii) any child whom the division superintendent has required to take a special program of prevention, intervention, or remediation as provided in subsection C of § 22.1-253.13:1 and in § 22.1-254.01. However, the requirements of this section shall (a) be satisfied for those persons 16 through 18 years of age who are housed in adult correctional facilities when such persons are actively pursuing a general educational development (GED) certificate but are not enrolled in an individual student alternative education plan pursuant to subsection D and (b) not apply to any child who has obtained a high school diploma, its equivalent, or a certificate of completion or who has otherwise complied with compulsory school attendance requirements as set forth in this article.

LEARNFARE AGREEMENT AND TEMPORARY ASSISTANCE TO NEEDY FAMILIES – TANF

Portsmouth Department of Human Services and the Division will coordinate efforts to identify those students who are deemed truant and not in compliance with attendance requirements. When attendance problems are identified, the local Department of Human Services and designated school personnel will develop a plan to address the student's truancy.

“Learnfare” is a Virginia Welfare Reform initiative which ties welfare payments to the school attendance of students (under the age of 18) who are TANF recipients. The program provides valuable assistance to School Divisions in their efforts to reduce truancy. Local Social Service Agencies are to jointly plan for implementation of the Learnfare requirements with Local School Divisions and to develop a plan for improving students' attendance at school when truancy is identified.

Notification: Portsmouth Public Schools receives monthly updates of TANF recipients for school-age children, five (5) through seventeen (17) years of age. The information is maintained in a central attendance database.

1. The PPS Information Technology Department notifies Portsmouth Human Services bi-weekly of all TANF recipients who have three (3) or more unexcused absences.
2. Upon receipt of information that a child is truant, Portsmouth Human Services will evaluate continued eligibility

of the children identified in accordance with TANF policy and procedures.

3. In cases where a child is determined to be truant, Portsmouth Human Services will consult with designated school personnel to develop a case plan to address the truant child's needs and circumstances to achieve compliance.

Code of Virginia § 63.2-606 requires schools to report non-attendance of children receiving Temporary Assistance for Needy Families (TANF) to local departments of social services. Families receiving TANF are required to comply with compulsory school attendance laws.

Bus Conduct (JFCC)

Students are required to conduct themselves on school buses in a manner consistent with established standards for classroom behavior. Students who become serious disciplinary problems on school buses shall be reported to the principal by the driver and may have their riding privileges suspended. In such cases, the parents of the student become responsible for seeing that their children get to and from school safely. DISTRIBUTION OF INFORMATION/MATERIALS (KF)

The Portsmouth City School Board seeks to minimize intrusions on the time of students and employees by communications from sources other than the school division. The Division Superintendent, or his/her designee, must approve, in advance, any materials sought to be distributed or made available by non-School organizations, including parent-teacher organizations and booster clubs. Approval will be granted only for materials from governmental organizations regarding activities related to the educational mission of the Portsmouth Public School Division.

DRESS CODE POLICY (JFCAA)

Purpose

One of the fundamental purposes of school is to provide the foundation for the creation and development of a proper attitude toward education. In order to further this purpose, it is essential to create and maintain an effective teaching and learning environment. Student attire impacts the teaching and learning environment. It can either promote a more effective educational environment, or it can disrupt the educational climate and process. Student attire that is acceptable for some social settings may not be acceptable for the educational environment of school.

In order to ensure that our students' education is conducted in an environment where safety risks, disruptions, and distractions are minimized, all students in the Portsmouth City Public Schools will adhere to the following minimal standards of dress. These requirements are in addition to any requirements imposed at individual schools that, with the approval of the School Board, adopt a Uniform Policy pursuant to other provisions of this policy manual.

The superintendent is hereby authorized to promulgate regulations consistent with the provisions of this policy.

In general, students are not to wear or carry items of apparel to school (for example, clothing, accessories, cosmetics, jewelry – including body piercing) that may interfere with the instructional process or present a health or a safety hazard to the student wearing or carrying them, or to others.

The School Board urges parents and students to exercise sound judgment, based upon the standard of appropriateness for the school setting, when choosing clothing, jewelry, and accessories to wear or bring to school, and to recognize that items that might be appropriate attire on nights or weekends are not necessarily appropriate for the school day and the classroom.

Interpretation and Implementation of Policy

The building principal/designee shall use reasonable discretion in interpreting and implementing the provisions of this policy. If a conflict arises in the interpretation of this policy, the interpretation of the building principal/designee shall be final. Principals, administrators and teachers shall use reasonable discretion in enforcing this policy.

Enforcement

Teachers and administrators may deny class entrance to students dressed or otherwise adorned inappropriately until arrangements may be made for their proper attire. Students who are insubordinate or refuse to change the improper attire, or who repeat dress code violations shall be subject to disciplinary action for violating the Code of Student Conduct.

Temporary Exceptions and Waivers

The building principal/designee and superintendent shall grant waivers where required by law to protect fundamental constitutional rights. The parent(s) or guardian(s) of a student may request a waiver from a specific provision of this policy and any related regulations where the strict enforcement of a provision would violate the student's fundamental rights. Such requests shall be in writing and addressed to the building principal/designee of

the student's school. If the building principal/designee denies the request, the parent(s) or guardian(s) may appeal their decision in writing to the superintendent or his designee. There shall be no hearing in such appeals; the superintendent or his designee will review the written record only. The final decision of the superintendent or his designee shall be in writing. There shall be no appeal from the final decision.

In order to allow appropriate attire for a particular educational or school activity, the building principal/designee has the authority to grant temporary exceptions to specific provisions of this policy and related regulations. An example of such an exception might be where a specially scheduled school event required a group of students to dress unusually on a particular day.

SEARCH AND SEIZURE (JFG)

To maintain order and discipline in the schools and to protect the health, safety and welfare of students and school personnel, school authorities may search a student, student lockers or student automobiles under the circumstances outlined below and may seize any illegal, unauthorized, or contraband materials discovered in the search.

As used in this policy, the term "unauthorized" means any item dangerous to the health or safety of students or school personnel, or disruptive of any lawful function, mission or process of the school, or any item described as unauthorized in school rules available beforehand to the student.

Student desks and lockers are the property of the school, and may be used for the storage of permitted student belongings only. School officials retain locker combinations and reserve the right to search desks and lockers as well as to open lockers at any time for repairs. A general search of lockers or desks may be conducted to repossess school property or to locate illegal materials. A random, systemic, non-selective search of student classrooms, desks, lockers or automobiles may be conducted by school officials in accordance with a pre-determined search formula. Students are responsible for the content of their assigned locker at all times.

The student's individual right to privacy and freedom from unreasonable search and seizure is balanced by the school's responsibility to protect the health, safety, and welfare of all persons within the school community. Should illegal materials be found during a search, law enforcement officials should be notified.

The locations at which searches of students and student property may be conducted are not limited to the school building or school property, but may be conducted wherever the student is involved in a school-sponsored function.

PERSONAL SEARCHES

A student's person and/or personal effects (e.g. purse, book bag, etc.) may be searched by a school official whenever the official has reasonable suspicion to believe that the student has violated or is about to violate the law or a school rule and that the search will yield evidence of the violation.

A personal search may include requiring a student to be scanned with a metal detector.

A pat down search of a student may only be conducted if a school administrator has established a high level of reasonable suspicion that evidence will be found to corroborate suspicion that a law or school rule has been broken. If a pat down search of a student's person is conducted, it will be conducted in private by a school official of the same sex and with an adult witness of the same sex present.

Strip searches may only be used when an extremely serious situation exists requiring immediate action. Such a search should be used only in the context of imminent threat of death or great bodily injury to a person or persons. If a strip search is necessary the school official should contact the appropriate law enforcement official, and the search should be conducted by a sworn law enforcement officer of the same sex, in the presence of a same sex adult witness. School officials may only conduct a strip search in cases where it is necessary to avoid the imminent threat of death or great bodily injury to the student or another person. If a strip search must be conducted by a school official, it must be by a same sex official with a same sex adult witness, and the school official must have the prior approval of the superintendent or his designee, unless the health or safety of the student is endangered by the delay.

LOCKER SEARCHES

Student lockers are school property and remain at all times under the control of the school; however, students are expected to assume full responsibility for the security of their lockers and are responsible for the content of their assigned locker at all times. Periodic general inspections of lockers may be conducted by school authorities for any reason at any time without notice, without student consent, and without a search warrant.

AUTOMOBILE SEARCHES

Students are permitted to park on school premises as a matter of privilege, not of right. The school retains authority to conduct routine patrols of student parking lots and inspections of the exteriors of student automobiles on school property. The interiors of student vehicles may be inspected whenever a school official has reasonable suspicion to believe that the student has violated or is about to violate the law or a school rule and that the search will yield evidence of the violation, or that illegal or unauthorized materials

or other evidence of illegal or otherwise prohibited activities are contained inside the automobile. Such patrols and inspections may be conducted without notice, without student consent, and without a search warrant.

SEIZURE OF ILLEGAL MATERIALS

If a properly conducted search yields illegal or contraband materials, such findings shall be turned over to proper legal authorities for ultimate disposition.

COMPUTER SEARCHES

School computers, software and internet access are school property. Students are only authorized to use school computers and other similar educational technology consistent with the educational mission of the school. School officials may search school computers, software and internet access records at any time for any reason and without student consent.

CONSENT SEARCHES

If a student gives a school official consent for a search the school official does not need to demonstrate reasonable suspicion. A student's consent is only valid if given willingly and with knowledge of the meaning of consent. Students should be told of their right to refuse to be searched, and students must not perceive himself at risk of punishment for refusing to grant permission for the search.

SEIZURE OF ILLEGAL MATERIALS

If a properly conducted search yields illegal or contraband materials, such findings shall be turned over to proper legal authorities for ultimate disposition.

Shots may be obtained from your private doctor, local military clinics, or Portsmouth Health Department (free) at 383-8585. **Be sure that you take a copy of your child's immunization record with you.** Regardless of where your child receives their shot, documentation must be taken to their school nurse as soon as possible to ensure that they may begin classes in the first day of school.

Current Physical for Kindergarten (information for Pre-K student): Every Pre-K and Kindergarten student will need a **current physical examination** before he/she can be admitted to class. The physical must include the date of assessment within a calendar year of the first day of school for the year they attend Pre-K and Kindergarten. This requirement is in accordance with Code of Virginia, Sections 22.1-270. **The Code does not extend a grace period for complying with this requirement.** Therefore, any student who does not have a physical examination form in compliance with the law **will not be allowed to attend school until** their parent can present one to the school nurse.

The student who attended Pre-K the previous year before attending Kindergarten, may also need additional immunizations in order to meet State requirements for entrance into Kindergarten. If shots are needed, your school nurse will send you a letter at the end of their Pre-K year indicating which ones are required before they can attend kindergarten. Once you have the completed physical and/or proof of the shots we show are needed, take them into your school nurse. Without this documentation, the Kindergarten student will not be able to attend school.

Field Trip Medications: If your child receives medication at school and goes on a one-day field trip during school hours, the school nurse will be sending a single dose of your child's medication on the field trip. If your child uses a multi-dose inhaler at school, the one you have provided will be sent on the field trip. The teacher or instructional assistant, who has received training from the school nurse, will carry the medication and administer it to your child, if needed, while they are on the field trip. **The only medication that can be**

given at field trips are ones for which a permission form, signed by the doctor and parent, is on file with the school nurse.

Medications for Before/After School Activities/Events: In regard to emergency medications a student may need available for before/after school activities, it is extremely important parents/guardians notify the individual in charge of the activity/event about the need. Examples of emergency medications include Epi-pens, Insulin, Glucagon and Asthma inhalers. **Before/After regular schools hours, the clinic is closed and a nurse is not available.** Please note that a student may carry emergency medications when the proper procedure is followed: contact your school nurse or student's primary care physician for the form that will need to be completed by the doctor or dentist. It is the parent/guardian's responsibility to **develop a plan** with the individual in charge of the before/after school activity/event so a safe environment may be maintained.

Head Lice: *In compliance with the positions of the American Academy of Pediatrics, the American School Health Association, the National Association of School Nurses and the National Guidelines Clearinghouse, Portsmouth Public Schools will practice the following to control Pediculosis (adult lice and nits) infestation among students and staff:*

Any student or staff who have live head lice OR viable nits close to the scalp visualized by the school nurse or other trained designee, will be referred for treatment at the end of the school day. Prompt treatment at home will be advised, including removal of live lice and viable nits. **Immediate removal of the person from school is unnecessary.** If the person has lice, he or she has probably been infested for weeks and prompt removal of the person could lead to embarrassment and ridicule. Following treatment, the person will be rechecked before returning to the classroom. If no live lice are found, the student may be readmitted to the classroom with a note from the school nurse. If live lice are found, the student must return home for further treatment. If nits are found on the hair shaft greater than ½" from the scalp, they are no longer alive and should be picked/combed out with a nit comb but they will not develop into live lice. If ANY nits are found, either at the time of initial or return assessment, the person will be rechecked in one week or at the discretion of the school Nurse or Health Services Supervisor after the individualized assessment of the person. The parent/guardian will be advised to continue to remove the nits. Persons with nits will be monitored and NOT be referred for further treatment at this time.

The student will be placed on a screening schedule if nits are found: 3 times a week for two weeks, 2 times a week for one week and once a week after that at the discretion of the School Nurse or Health Services Supervisor. Siblings, who are felt to be in close contact with a person with live lice will be inspected for infestation and referred appropriately. If there is/are sibling/s in another school, the original nurse will notify the school nurse of that school to inspect the sibling/s for a possible infestation.

Persons outside the immediate situation will not be informed or involved, such as other parents, staff members, bus drivers/assistants or cafeteria staff. This is to prevent embarrassment and protect privacy and confidentiality.

The School Nurse or Health Services Supervisor retain the authorization to, at her discretion, exclude a student with repeated infestations of live lice/nits or with a current active infestation for which there is an apparent lack of adequate follow through by the parents/guardians. If you have any questions in regards to any of these policies, feel free to contact the school nurse in your child's school or the Health Services Supervisor for Portsmouth Public Schools, Dr. Darlene Mueller at 393-8661

NOTICE OF SCHEDULED SCREENINGS

To Parents/Guardians:

School-based screening programs are provided for the early detection of unrecognized health problems. Through early intervention and/or treatment of any identified problems(s), potential disability and negative impact on school performance can be limited. The school nurses provide health assessments (screenings) in the areas of height, weight, vision, hearing and blood pressure at grades specified by the school district and in keeping with State mandates. Any problems found during the screening will be communicated to the student's parents/guardians in writing and sent home with the student. All results are confidential and are maintained in the student's scholastic record.

During this school year, students in your child's class will be screened based on the schedule below according to their grade level:

Kindergarten: Snellen vision (far vision), hearing

Grade Three: Snellen vision, hearing.

Grade Seven: Snellen vision, hearing.

Grade Ten: Snellen vision, hearing.

If you have any questions or concerns related to the above health screenings, you should contact the school nurse assigned to your child's school or the Office of Health Services at 393-8661.

SCOLIOSIS FACT SHEET

What is scoliosis?

Everyone's spine has natural curves. These curves round our shoulders and make our lower back curve slightly inward. But some people have spines that also curve from side to side. Unlike poor posture, these curves cannot be corrected simply by learning to stand up straight.

This condition of side-to-side spinal curves is called scoliosis. On an X-ray, the spine of an individual with scoliosis looks more like an "S" or a "C" than a straight line. Some of the bones in a scoliotic spine also may have rotated slightly, making the person's waist or shoulders appear uneven.

Who gets scoliosis?

Scoliosis affects a small percentage of the population, approximately 2%. However, scoliosis runs in families. If someone in a family has scoliosis, the likelihood of an incidence is much higher—approximately 20%.

In children, the vast majority of scoliosis is "idiopathic", meaning its cause is unknown. It usually develops in middle or late childhood, before puberty, and is seen more often in girls than boys. Most scoliosis is found in otherwise healthy youngsters.

The importance of early detection—tips for parents

Idiopathic scoliosis can go unnoticed in a child because it is rarely painful in the formative years. Therefore, parents should watch for the following "tip-offs" to scoliosis beginning when their child is about 8 years old:

*Uneven shoulders

*Elevated Hips

*Uneven waist

*Prominent shoulder blade or shoulder blades

*Leaning to one side

If any of these signs are observed, an appointment should be made with the child's family doctor, pediatrician, or orthopedic doctor for a comprehensive physical exam and possibly spinal x-rays.

Treatment

In planning treatment for each child, the doctor will carefully consider a variety of factors, including the history of scoliosis in the family, the age at which the curve began, the curve's location and severity of the curve.

Most spine curves in children with scoliosis will remain small and need only to be watched by a doctor for any sign of progression. If a curve does progress, an orthopedic brace can be used to prevent it from getting worse. Children undergoing treatment with orthopedic braces can continue to participate in the full range of physical and social activities.

If a scoliosis curve is severe when it is first seen, or if treatment with a brace does not control the curve, surgery may be necessary. In these cases, surgery has been found to be a highly effective and safe treatment.

Summary

Scoliosis is a common problem that usually requires only observation with repeated examination in the growing years. Early detection is important to make sure the curve does not progress. In the relatively small number of cases that need medical intervention, advances in modern orthopedic techniques have made scoliosis a highly manageable condition.

What Are Eating Disorders?

Eating disorders are real, complex, and devastating conditions that can have serious consequences for health, productivity, and relationships. They are not a fad, phase or lifestyle choice. They are potentially life-threatening conditions affecting every aspect of the person's functioning, including school performance, brain development, emotional, social, and physical well-being.

Eating disorders affect both males and females of all ages. Weight is NOT the only indicator of an eating disorder, as people of all sizes may be suffering.

Eating disorders can be diagnosed based on weight changes, but also based on behaviors, attitudes and mindset. Be alert for any of these signs in your child.

Key things to look for around food:

- Eating a lot of food that seems out of control (large amounts of food may disappear, you find a lot of empty wrappers and containers hidden)
- Develops food rules – may eat only a particular food or food group, cuts food into very small pieces, or spreads food out on the plate
- Talks a lot about, or focuses often, on weight, food, calories, fat grams, and dieting
- Often says that they are not hungry
- Skips meals or takes small portions of food at regular meals
- Cooks meals or treats for others but won't eat them
- Avoids mealtimes or situations involving food
- Goes to the bathroom after meals often
- Uses a lot of mouthwash, mints, and or gum
- Starts cutting out foods that he or she used to enjoy

Key things to look for around activity:

- Exercises all the time, more than what is healthy or recommended – despite weather, fatigue, illness, or injury
- Stops doing their regular activities, spends more time alone (can be spending more time exercising)

Physical Risk Factors:

- Feels cold all the time or complains of being tired all the time. Likely to become more irritable and/or nervous.
- Any vomiting after eating (or see signs in the bathroom of vomiting – smell, clogged shower drain)
- Any use of laxatives or diuretics (or you find empty packages)

Other Risk Factors:

- Believes that they are too big or too fat (regardless of reality)
- Asks often to be reassured about how they look
- Stops hanging out with their friends
- Not able to talk about how they are feeling
- Reports others are newly judgmental or “not connecting”

If Your Child Shows Signs of a Possible Eating Disorder:

Seek assistance from a medical professional as soon as possible; because they are so complex, eating disorders should be assessed by someone who specializes in the treatment of eating disorders. The earlier a person with an eating disorder seeks treatment, the greater the likelihood of physical and emotional recovery.

Additional resources can be found at Virginia Department of Education:

How to Communicate with Your Child

- Understand that eating disorder sufferers often deny that there is a problem
- Educate yourself on all eating disorders
- Ask what you can do to help
- Listen openly and reflectively
- Be patient and nonjudgmental
- Talk with your child in a kind way when you are calm and not angry, frustrated or upset
- Let him/her know you only want the best for him/her
- Remind your child that he/she has people who care and support him/her
- Be flexible and open with your support
- Be honest
- Show care, concern, and understanding
- Ask how he/she is feeling
- Try to be a good role model – don't engage in “fat talk” about yourself
- Understand that your child is not looking for attention or pity

Media and Directory Information Opt-Out Form

Throughout the school year, there will be opportunities for children to be interviewed or photographed during school hours and on school property for future use on division materials, websites or social media channels; in television or print media; or in other productions or outlets. If you do not want your child to be featured in photos, videos, or other digital media, please fill out the form below and return it to your child's school.

Additionally, in accordance with state code, Portsmouth Public Schools (PPS) may release students' "directory information" without previous parent consent. This includes information such as name, grade level, participation in activities, photo, address, telephone number, and others (you can refer to the Notice of Directory Information in School Board Policy JO for a complete listing of what is considered directory information). Names, addresses, and telephone numbers of students in grades 9-12 will normally be released upon request to military recruiters and institutions of higher education, unless parents/guardians specifically opt-out of the release of this information below. Again, only submit this form if you **do not want** your child's information provided.

Please be advised that even if you opt-out of the release of your student's directory information there may be certain instances where the division will be legally compelled to release this information, such as, to law enforcement officials or when the release of your student's directory information is otherwise specifically authorized by law.

OPT OUT FORM

Please return this completed form to your child's school prior to Sept. 30. If you do not return this form or it otherwise does not appear in your student's record, Portsmouth Public Schools is authorized to release your student's directory information and/or feature your child in public channels without prior written consent.

I wish to opt-out of the release of my student's directory information and photos to the following:

☐ Do NOT use my child's photograph, image or name in any media, outside organization or school division print material, website or social media channels

☐ Do NOT put my child's photograph or name in the school yearbook.

☐ Do NOT release directory information to any third –party requests (if this is selected, you do not need to select any others below)

☐ Do NOT release directory information to Military Recruiters

☐ Do NOT release directory information to institutions of higher learning

☐ Do NOT release directory information to prospective employers

Note: This form does not apply to photographs, videos or information shared during public events, even if they occur on school property (such as football games, graduation ceremonies, etc.).
